

Forest Hills School District

Dear Forest Hills students and family members,

As the 2020-2021 school year has ended and summer has begun, we would like to wish our students and their families a relaxing, enjoyable and healthy summer.

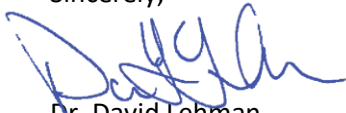

COVID-19 protocols are changing and guidelines are apt to change again before the start of the 2021-2022 school year. We will be in communication prior to the start of the new school year to inform you of the newest guidance and recommendations that pertain to COVID prevention in the school.

The COVID vaccination age requirement has changed and more students are eligible to receive the vaccine. If your child receives the COVID vaccine over the summer, please forward the record of this vaccine and/or any other vaccinations received so your child's health record can be updated with the school nurses.

In addition, if your child tests positive for COVID or has a positive antibodies test, please keep a copy of this documentation, because the district may need this information to make decisions about quarantine necessity in the future.

Have a great summer!

Sincerely,

Dr. David Lehman
Superintendent
